Comments

“ Betty always had the innocence of a child until the times came that she needed to share her godly wisdom with you. Then watch out, it made you see the light very quickly! It was one of many such beautiful aspects of hers. Her resilience in life left me in awe so so many times. She endured through obstacles not many ever even faced. She made the harder things she had to do look so easy though they werent at all. She survived many things in life when others wouldn't have and. I believe it was mainly because of her love for her children. She loves each one in a very special way, and I saw it when she would speak about them, each and every time! I am honored to have been a part of her life for so long. I considered her a true friend as well as a real mom to me right from the first minute we met. She always made me feel welcome in her heart and family making me feel very special and loved. For that I was and am, forever grateful. My children, her grandsons, and I, are blessed to have known such a woman of beauty and strength in our family. I will miss her and look forward to the time we are together again. I can see her now dancing with Jesus, playing with all the babies, and visiting loved ones that she has been missing. Thinking of her being all Joyfilled and peaceful in the new life she has, puts a smile in my heart I know we are already missing her so much, but we have to rest in that knowing, that she is at peace. I will be planting sunflowers every year now, in her memory, hoping she sends a blesing upon them, so they will grow as big and beautiful as hers always have! I was impressed with their beauty and strength and they will remind me of her each time I see them I love each of you Kipps Kids, I would have liked to be with you through this like always before. But know that, just like with Mom, my love for you is forever.... You are always in my heart and prayers!
