“ I miss my mommy no matter how much I got in trouble or how much trouble I was in and she was always there for me she was the one lady that always took up for me no matter what....

Even when I got sent away in prison for the seven and a half years that I was there she's always supported me even though she was sick with cancer and she hid it from me but it's all good I love her I miss her if she was if I could get her back one last time I would give anything to see her and my sister Peggy Although I'm not ever going to get over it because it's just something that's hard to get over some people say get over it it's life but I can't..... September 18th is only a couple days away ...not gonna be a good day for me even though you're gone you'll never be forgotten even though there are times that I have difficulty in life I managed to get through because of you now that you're going it's like the whole world completely fell apart although I'm out here in this big world all alone I know I'll find a way to manage and get through because you always told me to be strong you always be in my heart and your spirit always be with me together through life I love you and I miss you
