“ Kathy and family,

My thoughts have literally been with you over the past few months. David and you came to my mind a few months back with such an impression that I tried to reach out via email to no avail. I am so sorry to hear the news of his passing.

My memories of David go back to the early 2000's when we moved into the ward and I briefly worked for him during a period that helped me when my little ones were young. His strong vivacious spirit will be missed. He always had a voice and opinion on most matters and a smile on his face ready to face anything coming his way and Kathy you were always right there by his side. He was very motivated in his work, worked hard and often. When medical matters took you both to another area, you both were missed. You are loved and I pray that you are able to move forward with a passion for faith and life with strength and courage. May our Heavenly Father embrace and comfort you always!

Hold good memories close and family closer. We are praying for you all.

*Blessings always-
Chris Kittinger and Family*
