“ Jimmy was a senior in high school when I was in first grade. He pulled a carriage for the May Day program. I was intrigued by his horses. He was a nephew of Truman Epard who considered him like a son. May his family find peace in their memories of Jim.

“ Jim and I were friends from grade school until he went into the Air Force, after which we lost contact with one another. However, those early days remain in my memory. We had an adventuresome boyhood to say the least. Nina was a classmate with me and we graduated together. My sympathy goes to Nina and the family.
