“ Oh boy, the days at Automotive Industries on into Lear and IAC where she retired. Back on the day Marie would tell you what she thought. We all worked together and became a family. Sharing out home lives and stories about days gone by. It was a hard work back then but we managed to talk and laugh our way through it. I never missed a chance to say hi to her when passing by and she did the same. I glad she got to retire but I always wished I got to bid her farewell. I remember her and Nancy Butcher cutting up those 2 were a pair. Wear that golden crown marie you earned it and thanks for the memories..Karen Foster
