“ *It was an honor to work with Buck over the many years at Hepner Bros. block company. Buck was a very dedicated, honest, very hard working, and loyal guy. He kept us and our customers accurate counts with his math talents. The man was really good with his forklift. We cherished his friendship and support. We were so blessed to retain such wonderful coworkers. Oh the memories ...RIP Buck*

“ *Worked with Buck for all of those years. We had many good times. I could fill this page with stories. I'll share one.*
One day I was washing my truck beside a building that was hidden from Buck's view. He came by me with a particularly heavy cube of block on a fork lift. Just as he came into view I turned the hose on him and yelled "Hey Buck". He slammed on the brakes just as the water hit him. The rear end of the forklift came off the ground and dumped the block all over the place. What followed was some quite colorful language. Once I saw no injuries happened and stopped laughing, he and I proceeded to clean up the mess while we both laughed. He reminded me that paybacks were coming. And they did.
Buck may be gone from this earth but will never be forgotten by those that knew and loved him. R.I.P. my friend!
