“ Roy and I attended Mining Engineering School at Wisconsin Tech. I remember Roy as an excellent student and he was very smart. He also liked to party, but that was secondary to his studies. I also expericened many good times while with Bureau of Mines. MESA, and MSHA. He was a didicated employee and believed in the nations most precious resource "THE MINER". I will say a prayer for you Roy. Your Good Friend and fellow employee. Wayne D. Kanack, Retired DM, AR No. 37
