“ *I visited with Viola as she moved around to three different nursing homes and always looked forward to spending time with her. I loved hearing the stories about what a good cook her mom was and what a really good guy her husband was. She also talked about her son and grandson and how they took really good care of her. She would tell me a lot of stories from her past and we'd look at magazines together while we talked. I have missed being able to see her in person this last year and will always cherish the time we had together. Peace be with you dear friend.*
